

Academic Advising Policy

All students are required to meet with an advisor prior to course registration for the next semester. Advisors assist with both course selection and academic planning. Many academic programs require specific sequencing in order to reach degree completion in a timely manner. Additionally, you will benefit from guidance in exploring potential majors and coordinating career goals with educational opportunities or study abroad programs.

- If you have not declared a major, you will be advised in the Center for Academic Advising.
- All students with Learning Support requirements are assigned to a professional advisor. A Learning Support hold will be placed on the student's account until learning support requirements are complete. During that time, the professional advisors will register and provide academic support based on your major.
- Once you have completed 30 credits and declared a declared major, you'll be advised by a faculty advisors in your specific academic school to ensure you receive focused advising in your discipline and have access to important information regarding institutional requirements and resources.
- All students are reminded that they are ultimately responsible for their academic program and success. An academic advisor can never replace individual student responsibility.
