Student-Athlete Success Rates
The Student Right-to-Know Act requires institutions that receive Title IV HEA student financial aid to collect, report and/or disclose graduation rates for first-time, full-time degree-seeking undergraduates.

Working with the College Registrar, the Office of Institutional Effectiveness prepares and reports on the graduation rates not only for all first-time, full-time undergraduates, but also student-athletes who receive athletically-related financial aid in a specific cohort.

Athletically-related student aid includes any scholarship, grant, or other form of financial assistance, the terms of which require the recipient to participate in a program of intercollegiate athletics at an institution of higher education in order to be eligible to receive that assistance.

Student-Athletes (First-Time, Full-Time Freshmen)

- One-Year Retention Rate\(^1\) (Fall 2015 cohort) = 52.0%
- Six-year graduation rate\(^2\) (Fall 2010 cohort) = 100.0%

While reviewing this information please note:

- This report includes first-time, full-time, degree-seeking undergraduate students as measured during the normal fall data census.
- The graduation/completion rate is based on three years of attendance that equates to 150% of the length of our standard associates degree programs.
- The graduation/completion rate does not include students who left the school to serve in the armed forces, or official church missions, or in the foreign service of the federal government.
- Students who died or were totally and permanently disabled are also excluded.
