Welcome the COMPASS Fellows Class of Fall 2022

As part of the QEP, we are introducing an Online Virtual Library Orientation

The tutorial provides information about library resources and services, and has the added feature of a post-assessment to evaluate what students have learned.

Library

- Useful Links
- Resources
- Get Help

The orientation, conducted in LizWizard, familiarizes students with library resources and career planning, including informational web pages and video tutorials from Credo and other libraries. Topics include:

- Overview of services
- The library webpage
- The mobile application
- Search engines vs. databases
- Online library catalog
- Virtual library operated by the University System of Georgia
- Research Guides, evaluating sources
- Information about plagiarism and citations
- System of Georgia Virtual library operated by the University

https://www.ccga.edu/academics/library

Following the tutorial, a post-test will be available for students to complete. Faculty can request a report listing the students in their classes that have completed the orientation, making it easy to designate as an assignment or extra credit.

COMPASS Presentations:

COMPASS advisories have made 38 visits to classrooms to talk about the importance of career planning. Students are learning about the connections between core classes, why they are taking particular classes, and how they are tied to their future career goals.
