

**SCOTT RAYNES**  
PRESIDENT & CEO,  
Southeast Georgia  
Health System

## GUIDING STUDENTS TO SUCCESS

*“The collaborative spirit between Southeast Georgia Health System and the College of Coastal Georgia unites the strengths of compassion and knowledge to transform medical care throughout our community. We give to the Navigator Society in deepest gratitude for the College’s investment in its nursing program and its support in helping improve the lives of those we serve.”*

— SCOTT RAYNES

**WE CHALLENGE AND EMPOWER OUR STUDENTS** to be agents of change in a challenging and continually-changing world.

With the support of our extended Mariner Family, we can achieve our goals and mission. The contributions raised through our Navigator Society campaign enable us to support our students through various programs, provide faculty and staff development, and support the groundbreaking undergraduate research that allows students to find innovative solutions to real-world problems.
