

Bachelor of Science in Nursing Program

Program Goals

- Goal 1: The first-time NCLEX-RN pass rates will be at or above 80%.
- Goal 2: 55% of students will graduate within 4 semesters of entering the nursing program.
- Goal 3: 85% of graduates from each program seeking jobs will indicate receipt of offers for employment in nursing within 6 months after licensure.

End of Program Student Learning Outcomes

EPSLO 1: Integrate knowledge and skills from a solid base in liberal education and nursing science to provide holistic care across the lifespan in various settings.

EPSLO 2: Use knowledge and skills in nursing leadership and quality improvement to promote health and disease prevention for individuals, families, and communities.

EPSLO 3: Formulate clinical judgments supported by evidence-based practice from nursing science in the delivery of safe professional nursing care.

EPSLO 4: Incorporate knowledge and skills in information management and patient care technology in the delivery of competent patient care.

EPSLO 5: Demonstrate knowledge of health care policies, finance and regulatory environments and their influence on the nature and functioning of the healthcare system.

EPSLO 6: Exhibit professionalism and respect for patients, families, and colleagues through communication and collaboration of care.

EPSLO 7: Provide leadership and understanding of community health resources in health promotion and disease prevention at the individual and population levels.

EPSLO 8: Provide safe care for patients of increasing complexity with variations of treatment and health care resources across the continuum of healthcare environments.
